1. **Prepare for Exam III**

Here is a checklist for helping you prepare for the third exam:

- The third exam will be on 12/15/2022 (20 points).
- This exam will cover Chapters 7, 8, 9, and a little bit of 10.
- Questions of more than 10 points are about understanding terms and concepts like the exercises after each chapter.
- You are responsible for bringing the physical cheat sheet as Assignment V (10 points).
- Go over the figures. There will be questions about explaining figures.
- There will be a question about reading an overview of an algorithm and answering some questions after it.
- There will be a question about Neural Networks of simple logical computation such as NOT, AND, OR, and XOR.
- The last question will be about calculating K-Means.
- You cannot bring any other cheat sheets, books, laptops, phones, etc. Your phone will be placed together elsewhere in the exam.

- Good luck!
