1. **Prepare for Exam I**

Here is a checklist for helping you prepare for the first exam:

- The first exam will be on 10/18/2022 (25 points).
- This exam will cover Chapters 1 to 3, Python basics, Pandas, and Numpy.
- No Scikit-Learn coding questions. But there will be questions about terms and concepts from Chapters 1 to 3.
- You will receive your Assignment 1 as one of your cheat sheets.
- The Python questions are about Exercise 1, lists, dictionaries, unpacking, and list/dict comprehension.
- The Pandas questions are about the Pandas Cheat Sheet.
  - The exam WILL NOT COVER “Reshaping Data” on the first page.
  - The exam WILL COVER “Summarize Data” on the second page only.
- The Numpy questions are about the Numpy Cheat Sheet.
- You will receive another cheat sheet of Pandas and Numpy codes WITHOUT explanations.
- There will be a question similar to Exercise 2.
- You can find Exercise 1 and 2, Pandas Cheat Sheet, and Numpy Cheat Sheet on the homepage.
- You cannot bring any other cheat sheets, books, laptops, phones, etc. Your phone will be placed together elsewhere in the exam.
- Good luck!
