All material learned will be beneficial. It is very important to retain information.

Learning is made difficult in this manner. It would be

Wannabe Learning
How are these parts related?

Literate teaching presupposes three things, I think. The learner is active in understanding.

It is not to explain data, but to recognize the learner's own ideas. After all, the learner is a constructor of knowledge with all of the creative and theoretical power which is in our potential.
mental evidence, especially on the

After all, if you learn to think, the learning
